DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 2-6 have been considered but are moot in view of the new ground(s) of rejection necessitated by applicant's amendment.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 2-6 are rejected under 35 U.S.C. 102(b) as being anticipated by

Ainsworth et al. (US Pat No 6,299,774).

Ainsworth et al. teach receiving a stream of agricultural waste materials (col. 3, lines 65-66) to be treated into at least one reaction container (1) including a group of microbes (col. 4, lines 43-55) within the reaction container, whereby the microbes digest organic material in the stream of materials; inherently digesting the stream of materials in a bacterial growth phase; draining the liquid from the at least one reaction container to dry the remaining materials (col. 9, lines 52-62); repeating the process until the desired output is achieved (col. 7, lines 56-67), providing a temperature monitor (col. 8, lines 66-67) and collecting methane (col. 6, lines 40-67), wherein inflow and outflow is controlled (23; col. 10 lines 35-38).

Art Unit: 1724

4. Claims 5-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hojsgaard (6,325,935).

Hojsgaard teaches receiving a stream of organic waste materials to be treated into at least one reaction container (104) including a group of microbes () within the reaction container, means for controlling inflow (102) and means for controlling outflow (Fig. 1; col. 6, lines 24-35).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References are cited of interest to show the state of the art.
6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
